

Unlock the power of SMART Notebook® Plus

The world's leading education software, taken to the next level.

Give teachers the tools they need to create lessons that engage and excite.

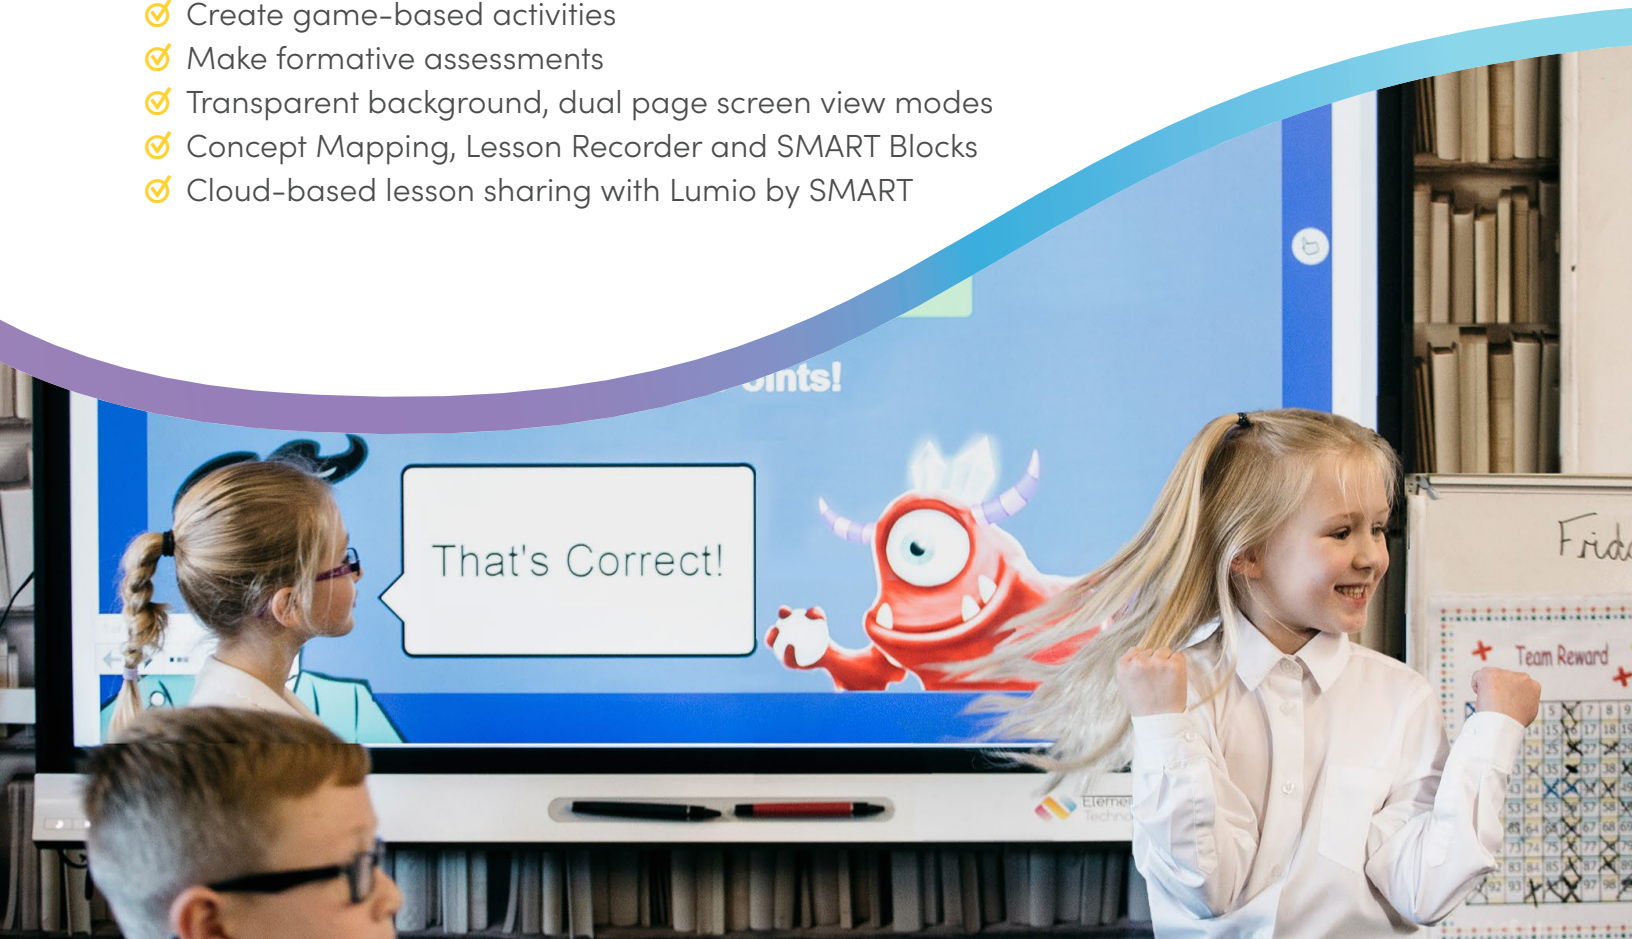

SMART Notebook Plus unlocks web-based features that allow students to individually engage with lesson content on their devices and game-based activities that make formative assessment fun. Notebook Plus brings the best in student engagement to any interactive display.

Check out some of the features that make Notebook Plus our crowd-favorite desktop software.

SMART Notebook Plus gives you access to:

- ✔ Interactivity on any brand of interactive display
- ✔ Connect student devices
- ✔ Create game-based activities
- ✔ Make formative assessments
- ✔ Transparent background, dual page screen view modes
- ✔ Concept Mapping, Lesson Recorder and SMART Blocks
- ✔ Cloud-based lesson sharing with Lumio by SMART

Get more out of your learning software.

Connect student devices for more active learning.

Instead of using devices only for independent work, Notebook Plus leverages your tech investments to make students an active part of the lesson. Features like whole-class brainstorming and competitive quizzes make students a part of the learning, even if they're joining from outside the classroom.

Game-based activities: learning, but make it fun!

Games and activity templates for individual students, groups, or whole class instruction transform any lesson into a dynamic, memorable learning experience. Use your own curriculum content to create popular activities like drag and drop, sorting, ranking, and matching - all in less than five minutes.

Real-time insight to student comprehension.

Quickly check for knowledge gaps with tools teachers can use on the fly like polls, quizzes, or open-ended questions. Formative assessments integrated into the lesson flow allow teachers to adjust their lessons in the moment based on the needs of their students.

It works with your current tech. Full stop.

SMART Notebook Plus connects with any brand of interactive display, and both Windows and Mac OS, allowing you to standardize your learning software and connect it to any student device and your SMART account, including Lumio. No matter what your tech configuration is, Notebook Plus is compatible and easy to use.
